Attached pls find copy of an article on Maicao, which appeared today on page 2 of the Aruban daily CORANT.

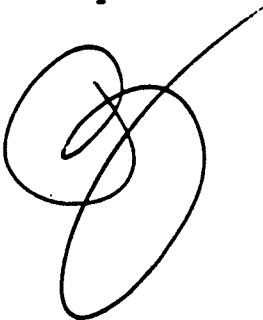

The article mentions that the Colombian coast-guard is very active with one vessel seized last week and that this has caused a standstill of the weekly traffic between Aruba and the Guajira. It also mentions that all boats are fully-loaded, going into their 2nd week of not being able to travel.

Obviously this also affects Panama in the same manner.

Will keep you informed.

Best regards,

Bryan
